### Professional Experience:

Web Developer

January 2025 - Present| TF2P

- Designed and developed responsive front-end components using HTML, CSS, JavaScript, React, and Tailwind CSS
- Translated design briefs into clean, functional web interfaces across desktop and mobile
- Identified and fixed layout issues and usability bugs, improving overall user experience
- Collaborated closely with the founder to implement real-time updates and performance tweaks
- Delivered clean, well-documented code under tight timelines in a solo development setup
- Helped improve website speed, structure, and visual consistency based on feedback and testing
-
